Rhinoplasty	\$1,900	\$475	4	\$3,800
Brachioplasty	\$2,750	\$475	3	\$4,175

### **Outpatient Plastic Surgery Cash Payment Pricing (continued)**

- Full payment is due prior to the procedure. The payment will be based on the OakBend Medical Center Standard OR hours per procedure plus the Base Rate plus any implants or non-customary supplies. A partial refund will be issued if the procedure takes less than the standard OR hours. Additional payment will be due prior to discharge if the procedure takes more than the standard OR hours.
- For multiple procedures done at one time, the charge will be a combination of 100% of the Base Rate of the procedure with the highest Base Rate plus 20% of the Base Rate for each additional procedure plus the charge for the standard OR hours for the longest procedure (e.g. abdominoplasty and breast augmentation would be  $\$3,400 + \$560 + (\$475 \times 6) = \$6,810$ ).
- Hourly charge is based on time from “wheels in” to the operating room to “wheels out” of the operating room.
- Actual hourly charges will be calculated based on \$237.50 per 30 minutes. Any portion of 30 minutes will be charged at the rate of \$237.50 (e.g. OR time of 3 hours and 11 minutes would be charged for 3 hours and 30 minutes).
- Facility pricing includes basic surgical supplies customary for the procedure. Additional supplies will be charged at cost plus 10%. Any use of high cost biologics, stem cell products or high cost skin products are not considered customary.
- Facility pricing does not include physician billing or implant costs. Physician billing is the responsibility of the physician’s office. Implants will be charged at cost plus 10%, if applicable.
- Additional charges will apply for additional hospital services if needed. Any additional hospital services will be priced at 50% of billed charges.
- Anesthesia costs are included.
- Please contact the OakBend Medical Center Chief Financial Officer with any questions, including pricing for procedures not included in the facility price list.
